I love music and art and finding joy and laughter in everything I do. As a manager and a developer, I thrive on finding the harmony and perfection in a project and in my collaboration on a team. I bring a creative point of view and an openness to explore all possible solutions to my work and the workplace. A positive attitude and disciplined work ethic are the cornerstone of my approach to creating my next masterpiece.

EXPERIENCE

2017 – Present

Freeman – Senior Web & Interactive Experiences

Developer | New York, NY

Leading a team of a 10+ Web Developers, UI/UX Designers, Project Managers, Technical Writers and Coordinators to design and develop modern, full-stack applications, products and experiences. Projects include enterprise applications, websites, touchscreen activations, single page web apps, chatbots, Alexa skills and more. List of projects and links available upon request.

2004 – Present

Mark Ledbetter Designs – Freelance Web Developer

Design, create and host customized, responsive, e-commerce ready websites for nearly 100 small businesses and professionals using HTML, CSS, PHP, JavaScript, WordPress and Photoshop.

Assist with the creation and management of social profiles.

Select projects include:

Dr. Whitney Bowe – <http://drwhitneybowe.com>

Miracle or 2 Theatrical Licensing – <http://miracleor2.com>

2016 – 2017

EDUCATION

General Assembly – NY, NY

Web Development Intensive – 12 week full-stack Web Development Program. Designed, developed and deployed JavaScript, Node, and Ruby on Rails applications.

JavaScript Intensive – 10 week part-time JavaScript Program. Designed, developed and deployed JavaScript web applications using object oriented programming.

Northwestern University

B.M. Voice in School of Music
Chicago, IL

HIGHLIGHTS

Made my feature film debut tackling Kirk Douglas in Central Park.

Danced with the Radio City Rockettes.

Greatest at-home accomplishment – if you asked my 5 year old twins – my silly voices and impressions
